

The Chr. Olesen Nutrition

# Company Profile

**Within the Chr. Olesen Group** Chr. Olesen Nutrition focuses on distributing food ingredients to our customers around the world. As a customer and as a supplier you will encounter us as a reliable partner who strives to improve the competitive edge of your business.

**We do this by:**

- Working only with high quality products that are carefully selected through long-term relationships with our manufacturers across the globe.
- Approving all products and suppliers according to the mandatory legislation and certifications, combined with our high-quality demands.
- Being specialized in the important function of a timely and reliable delivery service from our central shipping department in Copenhagen.
- Having strategic warehouse locations around the globe to ensure timely deliveries to our local and international customers.
- Ensuring to provide our customers on a regular basis with relevant market updates.

Our global Chr. Olesen Nutrition team offers many years of international market experience and a total commitment to customer service.
